A Fusion of the Art and Science of Cold Cathode.

[DRY LOCATION]

A fresh and creative way to illuminate an interior, Streamlites cold cathode lamps have end-to-end illumination, and are available in several standard lengths and colors.

Lamps are mounted to an elegant armature, with various methods for integrating the power supply.

Streamlites can be suspended from ceilings, mounted to walls, installed in coves, freestanding, and more.

Streamlites expresses a new and exciting language of hardware that transforms into elegant structures supporting the cold cathode with minimalist sensibility.

This light source offers unlimited possibilities that are both classic and timeless.
