A Fusion of the Art and Science of Light

SPECIFICATIONS:

model: Cathode B100 - Single Lamp Standard Output

primary power: 120V, 277V special order

compliance: UL Listed

control: color changing / dimming compatible

mounting: surface and/or recess environment: damp or dry

lamp color(s): see color chart on Detail sheets

date: October 12, 2009

FEATURES:

Cathode B100 is ACL's cold cathode compact ballast system that can be placed in coves with conduit feed for an easy and economical installation. Cathode B100 has a significant extended lamp life and have no socket shadows and require no lamp overlap. Cold Cathode comes in a variety of colors, with economical dimming available with many commercial dimming systems. Cathode B100 is a single lamp ballast system making it simple to track parts and install due to only 2 styles of lampholders required. They are perfect for both commercial and residential applications.

Project Name Date Linear Feet
